REVIEW

OF THE

MANAGEMENT OF ESTATES

IN THE

COURT OF WARDS,

OR UNDER THE

TALÚQDÁRS' RELIEF ACT,

IN OUDH,

For the Year ending 30th Sept., 1883.

THE statistics relating to the management of the estates under the management of the Deputy Commissioners in Oudh in 1882-83 are contained in the appendices to this review.

2. The year began with 62 estates, administered either under the provisions of the Talúqdárs' Relief Act or in the Court of Wards. One estate was brought into the Court of Wards in the course of the year. The returns thus refer to 63 estates. Their gross rental was Rs 17,10,555. In 1881-82 there were also 63 estates under management with a gross rental of Rs. 16,43,738. In the 62 estates which have continued under management from the previous year the fluctuation of rental has been under ·7 per cent. In the Kheri and Gonda estates there has been a growth of rental by 3 per cent., which is solely due to an extension of cultivation; in Bahraich the increase from the same cause was 1½ per cent. In Rae Bareli and Fyzabad, where improvements have been very extensively carried out, the effects begin to be seen by a development of the rental by about 2 per cent. On the other hand in Partábgarh, in consequence of mortgages, to which detailed reference will be found in the appendix, there was a decrease of 6 per cent. in the rental; and in Sitapur, where much of the rent is received

in grain, there was, in consequence apparently of an indifferent season, a diminution of 2 per cent. In the other districts the rents were almost stationary. As was remarked in the last review, the tenants on these estates are practically secured during good behaviour in the undisturbed occupation of their holdings.

3. In this connection the figures subjoined are of interest. They show the change of rental in 28 estates which have been continuously under management throughout the last five years. The estates in the submontane districts of Kheri, Bahraich, and Gonda have been omitted, and such estates as have had additions made to them by purchases in the Court of Wards:—

	Rental in 1878.	Rental in 1883.
	Rs.	Rs.
Akhaiyapur	4,646	4,853
Rámnagar	19,046	16,283

Kaithola	27,915	29,223
Rájapur	12,978	13,103

4. The gross rental of these estates has risen in the course of these five years from Rs. 5,67,201 to Rs. 5,86,578, a little more than 3 per cent. in all, or half

per cent. per annum. A considerable portion of this is due to extension of cultivation, some to the inclusion in the rent-roll of lands hitherto rent-free and the revision of quit-rents in properties that had to be extricated from heavy debt. Even were it supposed that neither of these causes was in operation, the rise is greatly less than that which appears to have occurred during the same period in the province generally. According to the evidence elicited by the district enquiries of last year, the progress, not of rental, but of the rent-rates on established cultivation, has averaged 2 per cent. per annum of recent years. In the rent-rates of the estates managed by the District Officers the figures quoted above show that there is little, if any, advance, and this is as it should be. The estates are brought under the Court for various reasons—some by reason of the minority of the proprietors, others because they came under the Talúqdárs' Relief Act, and others, again, because the owners declare themselves, often on account of heavy embarrassment, to be disqualified from managing them. It will then be seen that most of these estates begin with encumbrances, as even the minority properties are usually in debt. Nevertheless, the liquidation of debt ought not to be the prime object of the manager's care. The entire increase to the rent which could be obtained by unrestricted competition will rarely add so considerably to the profits as sensibly to shorten the period of management in the estates which the Government undertakes to extricate, while the results of the breathing-time which is given to the tenantry under the actual procedure of the Court of Wards are seen in the punctual payment of the rents, the construction of improvements by them on a remarkable scale, to the permanent benefit of the estate, and a general prosperity which is as gratifying in itself as beneficial in its example.

5. In appendix I. are detailed the demand and collections of rent from land, the main source of income in these properties. An abstract of the results of the management in the recovery of rents is given for each district in the following table:—

District.	Number of estates.	Demand.			Collections.			Percentage of collections.		
		Current rents.	Arrears of rent.	Total.	Current rents.	Arrears of of rent.	Total.	Of current rent to demand.	Of arrears rent to demand.	Of total collections to annual rental.
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.			
Lucknow	1	68,779	18,058	86,837	67,138	1,620	68,758	98	9	100

Partábgarh ...	6	85,819	10,046	95,865	85,060	4,281	89,341	99	42	104
Total ...	63	17,06,266	3,79,809	20,86,075	16.03,137	1,03,945	17,07,082	94	27	100

6. The rent due in the year was thus on the whole collected in full. In 1882 the realisations amounted to 104 per cent. on the current demand; but in 1881 they had fallen 8 per cent. short of it, and the tenantry came forward admirably in the payment of rent suspended after a bad harvest In 1883 the crops were not more than an average, if not rather below it; and not only are the collections creditable to the officers in charge of the estates, but they furnish some assurance that the rents on these properties are generally moderate and easily paid. The collections in Partábgarh and Sultánpur are very high, and the excess is mainly due to the measures continued in those districts from last year to call in the heavy balances due from under-proprietors. In Fyzabad these measures had been already completed, and the high percentage shown in that district is occasioned by the recoveries made by the Deputy Commissioner of Sultánpur in the portion of Khapradih which is under his charge. The collections in Sitapur are remarkable, as there was some diminution in the rent-roll from an unfavourable season, which might have been expected equally to influence the actual payments. The lowest percentage of recovery was in Rae Bareli; but the opium crop, on which that rich district largely depends, was severely injured by the rains of January and February, 1883, and the estates officer exercised a sound discretion in easing the demand on his tenants. The rents are everywhere reported to have come in without pressure; the tenants are said to be ready enough to complain when they consider they are ill-treated, but no instances of oppression were reported to the District Officers or the Commissioners on tour.

7. From all districts except Bara Banki, Gonda, and Rae Bareli, detailed lists have been received of rent balances proposed for remission. These were carefully checked by the estates officers in the villages, and on their recommendations remissions have been granted this year to the extent of Rs. 24,344.* It is very desirable that these balances should be systemati-

	Rs.
*Lucknow Division,	8,179
Sitapur ditto ...	5,236
Fyzabad ditto ..	6,440
Rae Bareli ditto ..	4,489

cally and methodically examined. A yearly inquiry into the village arrear-lists is a useful and necessary check on the rent-collectors, and when the arrears are genuinely irrecoverable, their formal remission gives encouragement where it is needed. This is the one point in which the management of the Rae Bareli estates has been deficient. For two years in succession no such inquiry has been made, although the schedules are burdened with very heavy arrears, much of which dates from the drought, and the irrecoverable portion of which it would have been of benefit to remit more promptly. The estates officer advances the opinion that the only sound principle is to make a remission all round as soon as a bad season occurs. It is a method frequently followed in English estates, but the circumstances in India are in some respects different. There are two harvests in the year instead of one, with additional chances of loss, and also, within certain limits, additional opportunities of recovery. There is, moreover, much greater variation in the agricultural conditions of different parts of the same property. A distribution of the rainfall which may be disastrous in a rice-village may yet yield an excellent harvest in a neighbouring village where the staple is Indian-corn. Where the peasants are enterprising, a crop of cane or opium may redeem much deficiency in the rest of their produce. There is, too, much graver difference in respect to the capital possessed by different cultivators or farmers. In India a tenant may be crippled by the death of a single bullock, and in practice the detailed examination of the village accounts as to the cause of arrears can never be safely avoided. It is, as the Deputy Commissioner of Rae Bareli truly points out, precisely in such cases as these that the benefit of a regular revision of the arrear-list is most marked, by saving those who have been unfortunate from the persistent and harrying demands of the subordinates of the estate staff.

8. In some districts an analysis is again given, showing the percentage of the rent balance due from the several classes of the estate tenants and the ratio the arrears bear to the annual rents due from these classes.

District.	Rent balances for which details are given.	Sub-settlement-holders.	Other sub-proprietors.	Lessees.	Tenants with right of occupancy.	Ordinary tenants.
	Rs.	*Ratio of balances in each class to the total.*				
Lucknow	18,078	1½	...	...	1	97
Bara Banki	44,668	4	2	4	...	90
Hardoi	31,290	10	...	...	...	90
Kheri	12,326	1	...	14	...	85
Bahraich	2,376	15	..	26	...	59
Partábgarh	6,828	22	7	7	...	65
		Ratio of balances to annual rent.				
Hardoi	31,290	12	...	...	...	12
Kheri	12,326	5	...	2	...	60
Partábgarh	6,828	9	6	14	...	7

It would be interesting if a similar analysis were maintained and submitted in all districts, for, as the relative proportion among each class of tenant on each estate is well known, this analysis would bring before the estates officer not only the extent to which his balances are covered by some tangible security, but the degree in which the several classes of his tenantry are punctual in the payments of their rents and the direction in which future supervision is specially required. This return, for example, has this year brought into unexpected prominence the heaviness of the arrear-debt among the tenantry in Kheri. The Deputy Commissioner has submitted an application for the remission of Rs. 3,915, but it appears that balances have been accumulating on the books for eleven years, and the examination by the Deputy Commissioner, of which the present remissions are the fruit, is apparently only the commencement of further enquiry, and an illustration of the need of that periodical scrutiny which has been already impressed upon estates managers.

9. So far as the limited means of comparison at present permit, there has been considerable improvement

during the year in the adjustment of the balances. In Bara Banki, Hardoi, Sultánpur, and Partábgarh, much more satisfactory results have been obtained in the dealings with under proprietors. In Partábgarh the arrears of under-proprietors are not more than 9 per cent on their rent. The reduction of the demand on lessees in Kheri has been considerable; but in Bahraich the amount outstanding seems to indicate that the examination of the periodical returns by the Deputy Commissioner was not so close as it should have been. In Hardoi and Partábgarh the arrears burdening the ordinary tenantry are satisfactorily light.

10. In appendix II. are detailed the income derived otherwise than from land and the balances uncollected. The improvement in this branch of estates' work which was noticed last year has been scarcely maintained. A comparative abstract of the receipts and balances is subjoined :—

	Demands.	Collections.	*Percentage of collections to demand.*			
			1882-83.	1881-82.	1880-81.	1879-80.
	Rs.	Rs.				
Rent of houses ...	2,945	2,656	90	84	88	67
Takávi	33,382	19,805	59	71	43	44
Law expenses ...	21,077	10,138	48	43	35	32
Interest	22,303	19,454	87	80	84	97
Miscellaneous ...	2,89,450	2,54,984	92	93	93	63
Total ...	3,69,157	3,07,037	83	87	84	57

The recoveries compare well with those of preceding years, except in the matter of takávi. In this item the main default is in the Etaunja estate in Lucknow, where, out of a demand of Rs. 3,174, the Deputy Commissioner realised only Rs. 118. He states that the arrears are practically irrecoverable, and has submitted a list of Rs. 2,657 for remission. Of these part is due from absconded and bankrupt tenants and part is barred by

limitation. This estate was only for a year out of the Court of Wards, and some explanation is needed of the apparently inconsiderate manner in which loans were given, for the loans seem to have been advanced during the period of the former management in the court, and to have been offered without any sufficient inquiry as to the trustworthiness of the recipients. In all the other districts except Bahraich the recoveries are in all the circumstances good. In Partábgarh the outstandings were realised in full. The arrear in Bahraich, 77 per cent. of the whole demand, is without sufficient excuse, and is further evidence that the details of the management in this district do not receive the attention they ought to receive and which they get elsewhere. In no other district was the percentage of arrears above 50 per cent. of the demand. A judicious management of takávi is one of the best tests of shrewd and skilful administration. A prudent liberality in times of difficulty is an economical service to the land, but it must be a prudent liberality, dispensed with discretion, and on conditions the observance of which should be remitted only for good cause shown.

11. There is some improvement in the recovery of law expenses, but it is not the less evident that, as was remarked last year, the realisation of rents through the law courts is not in the end a paying process. The share of law expenses in the whole expenditure of the estates was 1·5 per cent.; in 1882 it was almost the same, but the reduction in this item has been advantageously considerable of recent years. In 1880 it was 2½ per cent.

12. The other items of income do not call for remark. The miscellaneous income in Rae Bareli and Bara Banki was largely swelled by loans taken at light interest in wards' estates to pay off loans at heavier interest, which for purposes of account it was necessary to show in this table on both sides of the account.

13. Statements have been received and passed for the remission of Rs. 5,518 irrecoverable balances under the several heads of miscellaneous income.

14. In appendices III. and IV. the expenditure of the receipts on the several estates is accounted for under the several heads. An abstract is given below:—

Heads of expenditure.	Amount expended in 1882-83.	*Percentage of total income of year.*			
		1882-83.	1881-82.	1880-81.	1879-80.

Balance ...	47,803	2·3	5·7	1·7	4·7
Income of the year ...	20,14,122	100	100	100	100

15. The whole of the current land revenue demand was paid with the exception of Rs. 40 in Binohra. This estate holds a patti in a coparcenary village. The money was placed at the credit of the lambardár, but had not been drawn at the close of the year. The bakáya balance was reduced from Rs. 1,859 to Rs. 925, in accordance with the orders under which suspension was sanctioned of the former sum in Rámnagar.

16. The Government land revenue demand falls at 46 per cent. of the land rental of the estates under management. The lower percentage shown in the table above is due to the inclusion in the income of the estates of the receipts from other sources than land-rents. In 1880 the gross receipts were so short from the drought

of that season that the payment of the revenue absorbed an abnormal share of the income.

17. The cost of management has been slightly increased on the recommendation of the estates officers for the excellent work done by their staff, but is still very moderate.

18. The allowances to the proprietors of the estates in charge of the Deputy Commissioners remained nearly at their former level. There was a considerable increase in the allotments for marriages and other special occasions, but it had been low in the previous year, and on the two years did not exceed the average of 10 per cent. on the assets, which is the normal assignment.

19 The grants for the school expenses of minors (in addition to their stated allowances) have not much varied. The reports which have been received as to the progress in the education of the minor wards are on the whole satisfactory. Most of them, who are old enough to attend school, are being educated at the zila schools; four are under private tutors, four are students of the Canning College, and two of that at Aligarh; and with two exceptions the Deputy Commissioners are satisfied with the progress made in their general education during the year. The attention which Mr. Ferrar in Bahraich and Messrs. Barrow and Irwin in Fyzabad and Rae Bareli have personally given to the training of their wards deserves special commendation.

20. The direct expenditure on improvements has again diminished. This was induced by a further extension of the same causes as those which occasioned the reduction noticed in the previous year. Under this head are classed agricultural loans to the tenantry for cattle and seed. In 1881 the losses of the preceding season required advances on an unusual scale. In 1882 the sums so lent fell by a half, and in 1883 there was a further fall from Rs. 27,000 to Rs. 17,000. As regards improvements of a permanent character (and these in Oudh practically take the single form of wells for irrigation or for drinking purposes), it is becoming more

widely recognised that they can, in estates at least under official management, be best carried out indirectly—that is, through the tenants. The construction of a well requires the most patient and continued supervision and in the establishment ordinarily at the disposal of a District Officer there are rarely men of the leisure, honesty, and experience, that are needed for an effective control of the construction. The numbers of assistants so qualified must under any circumstances be limited. A tenant, on the other hand, who undertakes to build a well is always on the spot himself to look after it; he has a sufficient knowledge of the matter to guard against the simple practical risks in construction, and has the hearty assistance and advice of his neighbours; he is pecuniarily interested in his success: and for all these reasons his failures are few. An estates officer, moreover, who gets his tenants to build the a wells needed on the properties in his charge escapes the limits that are necessarily imposed by the capacities of a small establishment with slender experience in business of the kind. Every tenant who successfully builds a well acquires valuable privileges and a reputation among his neighbours, which excite emulation and may under good guidance develope improvements to a extent which is quite unattainable in official action The encouragement to the tenantry is not the least on the advantages which this method promotes. Every cultivator has before him the hope of placing on a firmer basis that security of tenure which, however much it is in fact conceded during the administration of the Court of Wards, may end with its termination, and he has at least evidence that prudence and thrift may procure a tenant a position of comparative independence in his own village.

21. There was no real diminution in the work of improvement, although the charges to estates were less. The season was in many respects an unfavourable one. The heavy winter rains not merely lessened the demand for irrigation and the anticipation of future needs, but seriously interfered with brick-burning. Nevertheless, the increase in well-building was

admirable. In Fyzabad the estates officer got no less than 94 masonry wells sunk by the tenants, while seven more were built by himself. This was more than double the number of the previous year. Major Barrow writes that he has personally inspected 87 of these wells, and satisfied himself that the builders have fairly earned the terms granted to them. In Sultánpur the terms on which applications were previously admitted have been sensibly relaxed, and instead of 19 wells the estates officer got 79 completed by his tenants in addition to 29 by his under-proprietors, and five wells and five dams under his own orders at the cost of the estates. Thirty-four more wells were under construction by tenants at the close of the year. In Partábgarh the Deputy Commissioner undertook with success the building of five new wells, one of which in a village hitherto entirely unirrigated alone yields a supply of water for fourteen "púrs." This vigorous advance is an improvement on the previous year; but only four wells were built by tenants, and the Deputy Commissioner should consider the advantage of obtaining the assistance of his tenantry in this beneficial work. In Rae Bareli 75 new wells were made, all by the tenants. The estates officer, on the part of the estates, confined himself to building three new dams for the storage of water and repairing four old ones at a cost in all of Rs. 626. This was an out-turn not quite so good as in the year preceding; but Mr. Irwin reports that a great deal of the most cheaply and easily irrigated land has now been secured from drought by the improvements of recent years, and that there is now a much diminished area to operate upon. Rae Bareli, under the impulse of Mr. Arthur Harington, took the lead in the present development of agricultural improvement, and it is gratifying to learn that in the estates under the charge of Government in this district so large an area is now fairly protected against a failure of rain. In Bara-Banki, where the record of improvement in 1882 was blank, the present Deputy Commissioner has made an excellent start; 36 wells were built by tenants; the estates made three and began three others; and the Deputy Com-

missioner writes confidently of his further progress in the current year. In Lucknow and Sitapur nothing of any value was done. In Hardoi the Deputy Commissioner built six wells; but in a tract which the report of the Assistant Director of Agriculture showed to be much in need of irrigation no attempt apparently was made to enlist the help of the tenants, and an extension of improvements by their aid is commended to the present Deputy Commissioner. In Kheri the Deputy Commissioner built three drinking-wells and in other ways did a good deal for his estates. As in that district, so in Bahraich, irrigation is little wanted; but 25 drinking wells were sunk in the Bahraich estates, 12 of them by tenants, to the decided advantage of the villages. The estates in Gonda had nothing done for them.

22. In 1882 Rae Bareli and Fyzabad, under Messrs. George Irwin and Barrow, stood almost alone in the respect of any energetic action for the improvement of the estates in the charge of the officers of Government. In 1883 Messrs Wells, Grigg, Noble, Henry Irwin, and Gibson have entitled themselves to honourable mention for the excellent advance they have made in this most important branch of their duties in the estates they administered.

23. The terms on which these improvements are effected are very varied. The circumstances of tenants are constantly different, and it should be the object of the estates officer to adjust his conditions freely to the form that may be most attractive to the individual applicant. In Rae Bareli it is with money help; in Fyzabad chiefly by leases ranging up to 20 years; in Bara Banki by grants for grove lands; in Sultánpur (where, however, leases for more than five years are said to be regarded with suspicion), the range is the largest of all, and includes, besides all these, postponements and, it is said, sometimes remission of rent. The latter is a form the assistance to the tenant should seldom take; where he has any capital at all, a reduction of the rent he pays on unirrigated land can rarely be called for, and the encouragement given by such a plan to deceptive applications renders it of questionable prudence. Major Barrow

observes that well-building has been, in proportion to rental, most successful in those estates in which grove lands can be given to the tenantry as reward. It is unfortunate that, under the terms of the Talúqdárs' Relief Act, permanent assignments of land for groves can be given legal validity only with considerable difficulty; but Major Barrow may be congratulated on the success with which he induced improvements by terms of other sorts.

Besides wells, some of the other undertakings of the estates officers met with considerable success. They are assisting in the introduction throughout the country of the Behea cane-mills, which promise everywhere to take the place of the wooden native crusher with a rapidity that has been shared by no other recent invention in this country. In Fyzabad and Bara Banki in particular a good deal of trouble was taken in getting better seeds and some new staples for distribution *gratis* among the tenants. In Bara Banki Guinea-grass has been planted at every little office in the estates, and its value as fodder is already becoming recognised. The estates officer of Rae Bareli conducted a series of careful experiments with the Kaisar and country plough which the Director of Agriculture would be glad to see continued. They have not resulted in a material advantage to the former; but the Director considers that in the hands of ploughmen who are little better than bond-slaves, the discomfort of a little additional weight in the plough prejudices the driver, and that the improved plough has thus not had a fair trial. The peasants of India, like agricultural classes in most countries, are conservative, and there was a strong feeling against the Behea mill until it established its undoubted superiority. The soil-turning plough has taken longer to show its advantages; but some of the estates in Oudh present special facilities for experiment with it, and it is hoped that some further trials may be made under the immediate advice of Major Pitcher.

24. In Bahraich Mr. Irwin has undertaken a very interesting experiment. The village-houses in that district are all thatched, and arson is the most frequent of crimes.

A man who has a spite against his neighbour burns his house down. Suspicion may be strong, but detection rarely possible. The consequent losses are sometimes serious. Mr. Irwin proposes to induce his tenants to substitute tiled for thatched roofs, and so lessen the risk of fires, by burning tiles and selling them on the estates at somewhat less than cost price. In the Tarái district, where irrigation is not needed and fever a severer enemy than drought, the Lieutenant-Governor would be glad to see more done for the tenantry in the way of estate dispensaries or at least a distribution of ample supplies of febrifuge. A useful preventive of fever is good drinking water, and with a carefully arranged scheme there should be little difficulty in procuring the services of trustworthy contractors to build wells for drinking water systematically through an estate.

25. No mention is made in the reports of 1883 of any further undertakings in the lining of roads with trees. Where local roads run through an estate and have not already avenues, the plan of planting young trees and making them over to selected tenants of the adjoining villages to tend, with a right to the future fruit, is again commended for trial.

26. As has been already mentioned, the sums advanced to the tenantry in takávi (see appendix VI.)—that is, for the purchase of seed and cattle or in aid of the construction of wells—has considerably diminished. In 1882 the sum amounted to Rs. 26,773; in 1883 to Rs. 17,204. The variations, however, of different districts in this respect are considerable. The officers of the Rae Bareli Division, in which indeed the greater portion of the estates is situate, have been always the most liberal in the grant of these loans; but it is difficult to say why in Sultánpur they should have increased from Rs 1,416 and Rs. 1,269 to Rs 2,698 and Rs 2,729, while in Rae Bareli they should have diminished from Rs 19,450 to Rs. 6,805. The estates officer of Rae Bareli says that the season gave no occasion for much assistance and that no reasonable application was refused. The

reports in the two other districts give no explanation of the increase there. It would not be consistent with good management to press advances on people who did not want them, and in Rae Bareli there has never been any limitation in giving needful help. It would, however, have been satisfactory if the Commissioner had elicited some information as to the cause of these differences. As far as seasons went, Sultánpur and Partábgarh seem to have been more fortunate than Rae Bareli, and it would seem that hitherto assistance of this sort in the two former districts had been somewhat too sparely given. It is a singular circumstance that in Kheri for two years running the sum disbursed in takávi should have been exactly the round sum of Rs. 1,000.

27. The outstandings due during the year under report were Rs. 33,382; the recoveries came to Rs. 19,804. Here, too, there was considerable difference in the results achieved by the several estates officers. The table below gives the amount due in each district and the percentage recovered :—

		Rs.			
Lucknow	due	3,174,	recovered	3	per cent.
Bara Banki	„	1,107	„	50	„
Sitapur	„	39	„	30	„
Hardoi	„	1,182	„	80	„
Kheri	„	686	„	60	„
Fyzabad	„	500	„	90	„
Bahraich	„	838	„	20	„
Gonda	„	193	„	70	„
Rae Bareli	„	22,092	„	60	„
Sultánpur	„	1,064	„	70	„
Partábgarh	„	2,5 4	„	100	„

As has been already mentioned, the takávi balances in Lucknow are said to be all irrecoverable, and the circumstances call for further explanation. For the failure in the collections in Bahraich there seems to be insufficient excuse. In the other districts the recoveries have been generally fair. Partábgarh has been distinguished for two years in succession by the recoveries of its dues in full. In transactions of this sort, as remarked last year, a certain amount of loss must be expected But the proportion of loss, if the advances are made with discretion, ought not to be very large, and in a year of

good harvests the endeavour should be made to keep the tenants to their engagements with some punctuality. The several districts show on the whole a more uniform ratio of recovery than before.

28. Appendix VII. gives the accounts of the debts of the estates under management. The sum paid in the reduction of debts in 1882-83 was, principal and interest, Rs. 5,64,410; in 1881-82 the sum was Rs. 5,22,260. The debts due on these properties when first brought under charge was Rs. 38,14,955. At the commencement of the year they stood at Rs. 23,77,425; but there was an outstanding claim for interest of Rs. 36,690, chiefly due in estates in the Bara Banki and Rae Bareli districts which had recently come into the Court of Wards, and the adjustment of whose affairs was not yet complete. The debt account at the close of the year stood at Rs. 19,48,294, with Rs. 14,166 interest. Of this the sum due to Government is—

		Rs.
In estates under Act XXIV. of 1870	...	7,43,671
Ditto Court of Wards ...	...	5,34,346
Total	...	12,78,017

The interest on the Government loans was paid in full and the principal reduced by a lakh and three-quarters. In the Bara Banki and Rae Bareli estates fair progress was made in the settlement of the wards' accounts and in the reduction of the arrears of interest. The statement of debt includes an item of Rs. 3,217, unpaid interest in Sitapur; but it is explained that under the contract this was not payable till two months after the close of the year, and was then duly paid. In Sultánpur and Rae Bareli there were some arrears of interest, to which attention has been called in the detailed estate notices attached to this review.

29. The progress in the satisfaction of debts was on the whole satisfactory The reduction effected was still larger than that of the preceding year; for though the gross rent-collections were not quite so high, there were no arrears of land revenue to diminish the sum available

for liquidation of debt. Details as to individual estates will be found in the separate notices appended.

30. Of the 63 estates in management during the year 25 were administered under the Talúqdárs' Relief Act. These are the balance of the 47 estates which were originally brought under the Act The more lightly indebted have meanwhile been cleared ; those remain in which the debt was heaviest. Twenty-two with a debt of 15 lakhs had been released, with the debt paid off. In the 25 still under management the debt has been reduced in 13 years from 17 lakhs to 7½. Four of these were discharged at the close of the year or immediately after.

31. Azízabad, the property of a Muhammadan gentleman in Rae Bareli, a fine estate which has been fortunate in escaping the droughts which have of late years repeatedly befallen the northern portions of that district, has been cleared of a debt of Rs. 39,000.

32 The Amáwán estate in the same district belonged to two brothers, by whom it was divided. Both were at the time of the passing of the Talúqdárs' Relief Act heavily burdened. The debt on the younger's was Rs. 88,000. The gross rental was only Rs. 15,500, and the normal surplus would not have sufficed for more than the payment of interest at 5 per cent. The creditors however, accepted a compromise at Rs. 73,000, and it was estimated that it would take at least 30 years to pay off this debt. The progress of extrication was delayed by the estate being involved in a series of unfavourable seasons, and at the instance of the present owner, a well-educated and intelligent gentleman anxious to assume the management of his property, negotiations were made for sale of some of the villages. The purchaser was the Ráni of Tiloi, to whose estate these villages had at one time belonged, and terms as high as 20 years' purchase were obtained. Six of the 13 villages of the property have been sold for Rs. 64,000, and the owner has now succeeded to an estate with a rental diminished in consequence by nearly a half; but it is free from debt, and

under his active guidance there is every hope of its so remaining.

33. Gangeo, a scattered and not very large estate in the Sultánpur and Fyzabad districts, was involved in considerable debt by its owner, whose manly and generous character is still kindly remembered in Eastern Oudh. The debt of Rs. 25,000 has been entirely cleared; extensive improvements have been effected with the aid of his son, who has for the last three years been associated in the management, and on this property also there is every prospect of its avoiding indebtedness in the present generation.

34. Bhogaitapur, in the Hardoi district, was also released, its debt of Rs. 85,000 having been paid off from the annual surplus of management. The property is a fine one, with a rental which stands now at Rs. 43,000; but little has been done for its development in the period of official management.

35. The only estate discharged from the Court of Wards during the year was Majnai, of which an account was given in paragraph 34 of the last review.

36. The usual accounts of the civil litigation in which the estates were concerned are submitted by the officers in charge. There was considerable increase in the amount of litigation, both in the number and value of the suits.

37. In 1881 the estates were plaintiffs in 159 cases with a value of Rs. 1,36,260; in 1882 in 95 suits with a value of Rs. 15,713; in 1883 in 112 suits with a value of Rs. 99,042. The great rise in the value of the cases brought has been occasioned by two very important suits in Rae Bareli for a value of Rs. 80,000, which are still pending. In 1881 the estates won 89 per cent. of the cases instituted; in 1882, 84; in 1883, 88 per cent.—a creditable percentage, which shows that the suits were undertaken with discretion.

38. There has at the same time been some increase in the litigation against the estates. In 1881, 158 suits

were brought against them of a value of Rs. 1,57,823; in 1882, 82 of a value of Rs. 2,20,866; in 1883, 91 of a value of Rs. 2,79,326. The high value of the suits of 1883 is due to three cases in particular—one in Bara Banki, where a ward of court has been sued as security; another in Bahraich, where relatives of the ward have claimed a share in the property; and the third in Partábgarh, where the ward has been sued upon a bond of old standing. None of these cases have been as yet decided. In the suits in which the estates were defendants decrees were given in their favour in 76 per cent., the same percentage as in 1882. This is an improvement since 1880, when it was only 56 per cent.; but a still further reduction in the proportion of suits carried against estates would be satisfactory. A man with a good case will rarely go to law if assured of a patient and impartial hearing from the estates officer.

39. In 27 appeals decided by the appellate courts the estates obtained a decree in 22; of nine special appeals they won six. These results are not quite so good as in the previous year, but are fair.

40. Of the pecuniary advantage, however, of litigation even successfully pursued, the following table suggests considerable doubt:—

	Due.	Recovered.	Remitted.	*Balance.*		
				Recoverable.	Irrecoverable.	Doubtful.
	Rs.	Rs.	Rs.	Rs	Rs.	Rs.
Claims decreed in previous years ...	15,906	3,576	7,547	3,[illegible]00	520	1,262
Costs decreed in previous years ...	7,764	1,469	858	1,390	738	3,309
Claims decreed during the year ...	4,846	848	...	3,994	4	...
Costs decreed during the year ...	42,575	1,925	7	2,092	7	224
Total ...	32,771	7,819	8,412	10,475	1,269	4,795

Of the amount on the estates' book for realisation, therefore,—

24	per cent.	was recovered.
26	"	remitted.
4	"	reported irrecoverable.
15	"	returned as doubtful.
32	"	considered recoverable.

In 1882 the recoveries were 23 per cent., the recoverable balance 30. It is not a satisfactory account of the law business of the estates, when not more than a quarter of the decreed dues can be recovered ; and it is evident that, notwithstanding the advice repeated in many reviews of the management, sufficient care is not yet taken in ascertaining whether the debtor has means to satisfy the claim as well as that the claim is in itself thoroughly just.

41. The realisations compared district by district show how varying is the attention given by estates officers to this part of their work :—

District.		*Recoverable.*	*Recovered.*	
Lucknow	...	230	99	per cent.
Bara Banki	...	2,668	18	"
Sitapur	...	366	50	"
Hardoi	...	19	100	"
Kheri	...	1,275	39	"
Fyzabad	...	1,139	35	"
Bahraich	...	1,171	18	"
Gonda	...	716	5	"
Rae Bareli	...	10,361	43	"
Sultánpur	...	12,377	8	"
Partábgarh	...	2,449	13	"

The collections in Lucknow and Hardoi were admirable; in Sitapur and Rae Bareli fair; in Gonda, Sultánpur, and Partábgarh exceedingly poor. The Deputy Commissioner of Gonda furnishes no explanation. In Sultánpur the balance is said to consist of some heavy items, the recovery of which is doubtful. The minute examination of the Deputy Commissioner of Partábgarh leads him to the opinion that little of the balance can be realized. It has again to be impressed on the officers managing estates that the means of the debtor should be carefully ascertained before a suit is brought ; but that a suit once brought, the interests of the management require that decreed debts should not be lost sight of but firmly pressed for.

42. The administration of the estates under the management of the District Officers in 1883 was again very successful. The seasons were not on the whole

unfavourable : rents were punctually paid, all current charges were met, a large reduction was made in the debt of the estates, more attention was paid to details of management, and in the important matter of improvements much wider interest was taken and gratifying results attained. The record of the year's work shows much intelligent and painstaking administration by the estates officers, and the Lieutenant-Governor acknowledges with pleasure the services they have rendered.

43. The charitable trusts, of which a list is given in appendix IX., although only 10 in number, are of considerable value. There are seven in the city of Lucknow, one in Hardoi and two in the Bahraich district. The receipts in 1883 were, including a balance in hand, Rs. 92,706 ; the expenditure Rs. 73,363, leaving a balance in hand of Rs. 20,195. The balance at the beginning of the year was Rs. 17,799.

44. The receipts are mainly in interest from Government securities. The charity fund of Lucknow for the relief of the destitute of the city is maintained partly from private subscriptions, partly by a Government grant, and is reported by the Deputy Commissioner to be very fairly administered by the native gentlemen who form the working sub-committee. The Lieutenant-Governor had an opportunity this year of examining the management of the Syad Salar endowment, which is under a committee of Muhammadans, and was satisfied with the method and care shown in their arrangements. The expenditure on all these endowments was within the income and in accordance with the trusts.

45. The statement of the educational endowments includes that of the Canning College, the management of which is separately examined by the Director of Public Instruction. The institution is in all respects thriving, and has a balance at its credit of Rs. 85,000.

By order, &c.,

J. WOODBURN,

Secy. to Govt., N.-W. P. and Oudh, in the Oudh Rev. Dept.

28*th March*, 1884.

APPENDIX A.

Lucknow District.—Officer in charge, Major Hastings, Deputy Commissioner.

No. 1, *Itaunja (Court of Wards). Normal income Rs.* 77,000 ; *on* 30*th September*, 1883, *credit balance Rs.* 1,10,000.

The report is for the second year of management on behalf of the ward. The rental was increased by Rs. 400 on new cultivation ; and the collections of the current rent were good, 97½ per cent. Of arrears, the collection was not so good as in the previous year, but the season was unfavourable ; the kharíf had been poor, and the Deputy Commissioner rightly refrained from pressing for their payment. The details of these arrears have been carefully examined, and on the recommendation of the Deputy Commissioner Rs. 8,198 have been remitted as irrecoverable. The collection of takávi loans was suspended for the same reasons. The recoveries in other items of miscellaneous income were good. The expenditure generally was within the sanction, and all charges were met. A beginning was made to the very necessary work of improvement in this property. Six wells were built at a cost of Rs. 1,075 in tracts subject to drought. The Deputy Commissioner has not found the offer of long leases a sufficient incentive to the tenantry to make wells. The offer was freely made, but accepted in only four instances. Assistance in wood for well-curbs and brick-burning was more welcome, and a considerable number of wells is now under construction on these terms. It is presumed that some assurance of lease is coupled with this aid, and the Deputy Commissioner will doubtless continue to invite the co-operation of the villagers by any terms he finds most attractive. The funds at the credit of the estate are very large. Its investments in loans and Government paper amount to Rs. 79,100 ; and it had a cash credit at the commencement of the current year of Rs. 12,200

The ward is a student of Canning College, where he is reported to be making satisfactory progress.

Bara Banki District.—Officer in charge, Major Noble, Deputy Commissioner.

No. 2, *Pokhra Ansari* (*encumbered estate*). *Normal income Rs.* 61,000 ; *on* 30*th September*, 1883, *deficit Rs.* 50,600.

In some respects the management of this estate continues to be very successful. The rent collections were excellent, and great progress was made in the reduction of a debt, under which at one time the estate threatened to be bankrupt. The debt was lowered during the year by the sum of Rs. 16,000. At the same time there are indications in the report that the tenantry are very poor and need active assistance and encouragement The arrears still retained on the rent-roll amount to upwards of Rs. 25,000, and a considerable area of cash-rented land appears during the year to have relapsed into a tenure on grain-rents.

Proposals for the remission of rent-balances are under the Deputy Commissioner's consideration, and the matter seems to require early and liberal treatment. A beginning was made in the construction of wells. Thirteen were built by tenants on a grant of grove-land, and the concession of long leases ; but the estate itself, out of an allotment of Rs. 3,000 budgeted for the purpose, spent only Rs. 950. Ill-considered projects of well construction at the charge of the estate are of course to be deprecated. But the estate has suffered so severely from failure of rain during the last few years, that, in its own interests and those of its tenantry, it is desirable it should itself undertake irrigation works with proper precautions for their supervision, if the tenantry are unable to find the necessary capital.

The attendance of the young rája at school has at last been procured, and now that the preliminary difficulties have been overcome, it is hoped that his education will steadily progress.

No. 3, *Rámnagar* (*encumbered estate*). *Normal income Rs.* 16,700 ; *on* 30*th September*, 1883, *deficit Rs.* 55,600.

The affairs of this deeply embarrassed property have not on the whole improved. Under the influence of another unfavourable season there was a fall in the total rental of Rs. 600; and though the collections were good, it was unable to do more than pay its revenue and the interest on its debt. Active steps were, however, taken for the development of irrigation, and 16 wells were built during the year, 14 of them by tenants, by which 360 bíghas will now be watered, and the Deputy Commissioner anticipates still greater success in this direction in the current year Large remissions of rent-balances have been given, which, it is trusted, will give heart to the tenantry in the depression which a series of bad harvests have given much ground for.

No. 4, *Akhyapur* (*encumbered estate*). *Normal income Rs.* 4,900 ; *on* 30*th September*, 1883, *deficit Rs.* 8,500.

The progress in the payment of debt, recommenced last year, after a series of harvest losses and reduced receipts, has been continued. Rents were collected in full, all current charges were met, and a payment of Rs. 500 effected against the principal of the debt. It is to be regretted, however, that, though the necessity of additional wells is as strongly felt in this as in Rámnagar, the manager was unable to effect anything towards that end. As the estates are said to adjoin, better success was to have been anticipated. The Deputy Commissioner intimates that in the current year advances have been asked and given for assistance in the building of wells.

No. 5, *Josmandi* (*encumbered estate*). *Normal income Rs.* 14,700 ; *on* 30*th September*, 1883, *deficit Rs.* 10,500.

Rent collections were not quite so good as last year, but two villages suffered severely from the deficient outturn of the autumn crops, and the Deputy Commissioner rightly eased his demand. All current charges were met and the principal of the debt reduced by Rs. 4,000.

Three old wells were repaired and made serviceable for irrigation, and three new ones are now in hand on the part of the management. The Deputy Commissioner acknowledges the active assistance he has received from the nephew of the talúqdár. A younger and more energetic manager has been appointed, and more thorough progress is expected in the current year.

No. 6, *Togapur Yakutganj* (*Court of Wards*). *Normal income Rs.* 5,200 ; *on* 30*th September*, 1883, *deficit Rs.* 52,100.

This small property belongs to the heirs of Diwan Kishan Kuar of the Panjáb, for the settlement of whose debts a loan of Rs. 60,000 was given by the Government of India on the security of Togapur. The estate continues in lease ; and almost the whole balance after payment of the revenue is applied to liquidation of the debt. This was the second year of its inclusion in the Court of Wards.

No. 7, *Kharka* (*Court of Wards*). *Normal income Rs.* 24,800 ; *on* 30*th September*, 1883, *deficit* Rs. 48,000.

This estate came into the Court of Wards in the middle of the previous year with a very embarrassing debt, and a great deal has been done to placing its affairs on a better footing. The old debts bore high interest. These have been paid off by new loans at six per cent., to the great relief of the estate. The rent collections were admirable, and the recoveries on other sources of income very good. Current charges were all met, and the debt reduced by nearly Rs. 4,000. One well was built on a site where the cultivators had been hitherto entirely dependent on the rainfall, but further measures were postponed pending the issue of a suit of considerable importance to the estate.

No. 8, *Bhilwal-Khanpur* (*Court of Wards*) *Normal income Rs.* 68,600 ; *on* 30*th September*, 1883, *deficit Rs.* 1,67,000.

This estate was brought into the Court of Wards at the beginning of the year at the instance of the proprietor,

a widow. The debts were very heavy, but by a series of loans at light interest, and by a reduction in the rate from 12 to 7½ per cent. by one of the principal creditors, the Bank of Allahabad, a surplus has been obtained which, the Deputy Commissioner trusts, will in the current year amount to Rs. 10,000. The estate is a fine one, the cultivation good and capable of great development. Rent collections were excellent and the management in all respects good. About Rs. 900 were spent on improvements, and nine new wells were built by tenants irrigating 320 bíghas. The Deputy Commissioner has made a good beginning, and expresses his belief that on the liberal terms offered to tenants wishing to construct wells and found hamlets great improvement will be effected on the property, the income in the future placed on a more secure basis, and the assets of the estate gradually enhanced. A portion, which has a rental of Rs. 5,700, lying in the Rae Bareli district, has been under attachment for some years in execution of decree. That decree has been satisfied in the current year, and the profits of the Sikandarpur portion will be added to those of Bhilwal proper for the liquidation of the debts.

District Sitapur.—Officer in charge, Mr. Dyson, Deputy Commissioner.

No. 9, *Bamnawán* (*Court of Wards*). *Normal income Rs.* 6,500; *on the* 30*th September*, 1883, *credit balance Rs.* 13,300.

The collections were moderately good, but there was a fall of Rs. 200 in the rental demand, which the Deputy Commissioner has not explained. The estate is subject to floodings from the river Chauka. Irrigation wells are not needed, but in a property with a large balance at its credit something might have been done for improving the villagers. Of the balance at credit Rs. 10,300 are invested in a mortgage on the wards'

estate of Deokalia in the same district, and the Deputy Commissioner hopes to find an investment in land for the remainder before the estate is released. The ward is said to be an intelligent and manly lad of 20, but the report contains no mention of any steps having been taken to associate him in the management of his estate and teach him, before he takes charge, the advantage of methodical arrangements.

No. 10, *Bajehra (Court of Wards). Normal income Rs.* 10,400 ; *on* 30*th September*, 1883, *deficit Rs.* 18,600.

Satisfactory progress is being made in the reduction of debt. When the estate came under charge in 1869, on the owner becoming insane, the debt was Rs. 57,400. A debt of Rs. 8,840 was paid off in 1883 by accumulated savings, and there now remains but one creditor and a debt of Rs. 18,600. Collections were good, but nothing was done for improvements, and no apparent interest taken in the property, except in the recovery of the tenants' rents. The Deputy Commissioner considers the payment of the debt of paramount importance. It can never be a matter of exclusive importance, and in an estate which now owes a very moderate debt the neglect of all measures for the improvement of the property and of the condition of the tenantry cannot be defended.

No. 11, *Deokalia, nine-anna share (Court of Wards). Normal income Rs.* 10,500 ; *on* 30*th September*, 1883, *deficit Rs.* 45,000.

The Deokalia property is owned by two brothers, whose interests are separate. Since they placed their estates in the Court of Wards in 1880 a good deal has been done for the extrication of the estates from debt, which had brought them to the verge of insolvency. The larger share was the least involved ; but one village was sold for Rs. 8,000, and the remainder of the debt consolidated for a loan at light interest, which in 1883 was reduced by Rs. 3,000. The Deputy Commissioner anticipates that it will take fifteen years to clear the

property, and in these circumstances excuses himself for omitting any consideration of its improvement. Some consideration of this sort may be pecuniarily useful. The rental of the estate has fallen by Rs. 500, of which no explanation at all is tendered, although a very serious matter in a small estate heavily encumbered.

No. 12, *Deokalia, seven-anna share (Court of Wards). Normal income Rs.* 6,200; *on* 30*th September*, 1883, *deficit Rs.* 40,000.

Very similar remarks apply in this estate, collections were fair, the debt was reduced by Rs. 2,000, but nothing was done for the property, and there is an unexplained diminution of no less than Rs. 700 in the rental.

Hardoi District.—Officers in charge, Messrs. Wood and Butts, Deputy Commissioners.

No. 13, *Sarwan Baragáon (encumbered estate). Normal income Rs.* 44,000 ; *on* 30*th September*, 1883, *deficit Rs.* 93,500.

This estate has at last made a sensible advance in disencumbering itself. The collections were excellent, and part of the sale-money, mentioned in the estate accounts of last year, came in. The debt was thus reduced from Rs. 1,06,000 to Rs. 93,500. The debt would have been still further decreased, but a remittance of Rs. 4,000 from the portion of the estate managed by the Deputy Commissioner of Kheri arrived too late to be credited to Government in the accounts of the year. Tw owells were built by the management and a purwa founded. The Deputy Commissioner regrets that he has not more money to spend on these improvements, and speaks of a village he had visited, in which the building of a well by the estate had undoubtedly raised the tenants from poverty to comparative comfort. He will probably find, as has been discovered elsewhere, that

the tenants are not all poor, and that the most valuable assistance will be given in this matter if the tenants are encouraged to come forward.

No. 14, *Asifpur (encumbered estate). Normal income Rs.* 21,700 *; on* 30*th September*, 1883, *deficit Rs.* 16,300.

Rent collections were exceedingly poor, and the Deputy Commissioner is evidently satisfied that the sarbarahkar had no sufficient excuse. In all branches of his work this manager seems to have been apathetic and negligent. He was entrusted with the construction of wells, and it is fortunate that of the six he was expected to make, he undertook only two. There would have been reason in these circumstances to expect failure.

No. 15, *Dundpur (encumbered estate). Normal income Rs.* 8,300; *on* 30*th September*, 1883, *deficit Rs.* 2,250.

The hope expressed last year of the estate being cleared in 1883 was not realised. Rent collections were indifferent, and a grant of Rs. 600 was made to the talúqdár for special personal expenses. One well was built at the expense of the estate.

No. 16, *Durgaganj (encumbered estate). Normal income Rs.* 7,100; *on* 30*th September*, 1883, *deficit Rs.* 13,800.

The rent collections on this little property were only 87 per cent. of the demand, the lowest ratio in any estate in the province. The manager is apparently the same as that of Asifpur. A small share was purchased for the estate in Bilgram for Rs. 340, and after paying the interest of the Government debt, not more than Rs. 200 was available for reduction of the principal. The attention of the Deputy Commissioner is again desired to the remarks made on this estate in the review of last year.

No. 17, *Boghiari (encumbered estate). Normal income Rs.* 10,500; *on* 30*th September*, 1883, *deficit Rs.* 19,800.

Rent collections were here again below the average, and the Deputy Commissioner speaks of the manager's

want of industry. One small well was built and a hamlet founded. The debt was reduced by Rs. 2,600.

No. 18, *Bhogaitapur* (*encumbered estate*). *Normal income Rs.* 43,000; *on* 30*th September*, 1883, *surplus Rs.* 3,800.

At the close of the year this fine property was restored to its owner cleared of its debts. These were originally Rs. 85,000 and have taken 13 years to pay. The Deputy Commissioner promised a detailed history of the management throughout this period, but his report has not yet been received. There seems to have been little done for improving the property, but the rental has gradually grown from Rs. 38,500 to Rs. 43,000. The rent of the year was collected in full. A well was made, a dredger bought, a new hamlet settled, and a handsome surplus made over to the owner. On the prospects of his management the Deputy Commissioner gives no opinion.

No. 19, *Mansurgarh* (*Court of Wards*). *Normal income Rs.* 11,600 ; *on* 30*th September*, 1883, *credit balance Rs.* 8,500.

The rent collections on this flourishing little property were also excellent. Upwards of Rs. 800 were spent on various improvements, and an advantageous investment was found for half of the large surplus. The ward attends the Hardoi High School and is reported to be making fair progress.

No. 20, *Marwán* (*Court of Wards*). *Normal income Rs.* 14,000 ; *on* 30*th September*, 1883, *credit balance Rs.* 9,500.

In this property, too, the collections were all that is to be desired ; a sum of nearly Rs. 700 was spent on improvements, and half of the surplus lent on the security of a ward's estate in Bara Banki. The ward is still under a private tutor ; the Deputy Commissioner does not report on his progress.

Kheri District.—Officer in charge, Mr. Gibson, Deputy Commissioner.

No. 21, *Bahádurnagar* (*encumbered estate*). *Normal income Rs.* 53,000 ; *on* 30*th September*, 1883, *deficit Rs.* 32,000.

The rent collections in this estate, as indeed in all of this district, were creditably high; but the arrears on the books are considerable, and for the reasons given in paragraph 8 of the review seem to call for the Deputy Commissioner's careful examination. Irrigation wells are stated to be not needed ordinarily in this part of the district. One such well, however, was sunk, and two drinking wells. Assistance was continued in the introduction of Bihia mills, but it is not explained whether these are let out to tenants, or in what form the assistance is rendered The greater portion of the surplus was spent, under sanction, in the marriage of the ward to the daughter of the Rája of Nánpara. The estate should be clear of debt in three years. The ward spent the most of the year with his father-in-law, under a private tutor, but the progress in his education is not satisfactory.

No. 22, *Kasmori* (*Court of Wards*). *Normal income Rs.* 5,600 ; *on* 30*th September*, 1883, *credit balance Rs.* 2,800.

Kasmori is the remnant of an estate formerly known as Agar Khurd, belonging to a family of kanúngos. The rest had to be sold to pay debts. Collections were good, expenditure low, and a small surplus accumulates, which in last year's report it was intended to invest in a coparcener's share, but which remains, without explanation, uninvested The ward attends the Lakhimpur High School.

No. 23, *Bansi* (*Court of Wards*). *Normal income Rs.* 9,000; *on* 30*th September*, 1883, *credit balance Rs.* 300.

The debt remaining on this little estate was cleared just in time. Since the close of the year, the management has been made over to the ward on his coming of age. Collections were good.

Bahraich District.—Officers in charge, Messrs. Ferrar and H. C. Irwin.

No. 24, *Rhewa* (*Court of Wards*). *Normal income Rs.* 76,000; *on* 30*th September*, 1883, *credit balance Rs.* 33,000.

The debt of Rs. 72,000 with which this very fine estate came into the Court of Wards seven years ago has now been cleared off, and at the close of the year there was a large surplus at credit. The undertakings promised last year for the benefit of the property have been excellently commenced. Arrangements were made through the Department of Agriculture for contractors for well-building on a considerable scale. Twelve drinking wells, the main want in the lowlying lands of which this estate is composed, and one irrigation well were built by the management during the year, as well as four old wells thoroughly repaired. Twelve wells were also built by tenants in return for grants of grove lands, and the estates officer has submitted excellent proposals for encouraging the tenantry, by assistance from the estate, in the substitution of tiled for thatched roofs to their houses. The prevalence of arson in this part of the country, and the serious injury the villagers suffer from it, make this a very desirable change. Three groves have been planted, three nurseries started, four hamlets founded, and 50 new cultivators settled. These are all signs of active and successful management. There is, nevertheless, still evidence of the inattention to details of rent collections which had to be noticed last year. It is difficult to believe that if the officer in charge were furnished with periodical statements of the progress of collections village by village, such as that he submitted at the end of the year, the considerable discrepancies shown in the list would exist unexplained. In the villages of Patti and Gangauli one-fourth of the year's rent remained in balance; in the small village of Chak Bairia nothing was collected at all. It is quite possible there is a sufficient explanation for all such cases, but the explanation should have accompanied the statement. The only remark

made as to any village is that in Kainipur the rental fell from Rs. 94 to Rs. 13 in consequence of many relinquishments. In whatever light it is taken, so remarkable a result is scarcely creditable to the establishment. The account given of the ward is eminently satisfactory, both as to the boy's progress and the close personal interest taken in him by the Deputy Commissioner. The establishment has been advantageously strengthened, and a good report is given of the patwáris and chaukidárs of the estate.

No. 25, *Bangaha* (*Court of Wards*). *Normal income Rs.* 9,800; *on the* 30*th September*, 1883, *credit balance Rs.* 1,28,000.

The lease continues in the name of the ward's mother, whose management appears to be all that is to be desired. The ward will soon be of age, and of his application and intelligent interest in the affairs of his estate the Deputy Commissioner gives a gratifying report. A serious litigation instituted by his uncles will, it is hoped, be ended before the time arrives for delivering the property into his direct management. Rs. 1,000 were spent on wells, which, considering the size of the estate and its character, is probably as much as it altogether requires.

No. 26, *Mirabad* (*Court of Wards*). *Normal income Rs.* 3,800; *on* 30*th September*, 1883, *credit balance Rs.* 3,300.

It has been necessary in this estate to admit to a share certain of the relatives of the ward; but the terms offered have been in one case refused, and the matter has been brought into court. The estate of the minor has thus been considerably reduced, but it is free of debt, and has on the whole been successfully managed. The ward's education has not prospered, and he has now been put under a special tutor.

No. 27, *Nikahi* (*Court of Wards*). *Normal income Rs.* 1,300; *on* 30*th September*, 1883, *deficit Rs.* 2,500.

This small estate consists of a single village, in which the collections were fair. The debt was reduced by

Rs. 200, and a loan at 6 per cent. substituted for the remaining debt, the interest on which was 10 per cent. In this case, too, the ward's education has not made the progress that was to be desired, and arrangement has also been made for giving him a private tutor.

Gonda District.—Officer in charge, Mr. White, Deputy Commissioner.

No. 28, *Biláspur (Court of Wards). Normal income Rs.* 75,000; *on 30th September,* 1883, *credit balance Rs.* 35,000.

The growth of this large and prosperous estate continues. The rental increased during the last year by nearly Rs. 4,000. The half of this was the progressive rise in sub-settlement rents fixed by the Settlement Officer simultaneously with a progressive assessment of the land revenue. The rise in cultivating rents the Deputy Commissioner states to have occurred in spite of his orders. It does not appear to what extent this increase is due to an extension of cultivation; but it is mentioned that in the Ellenpur grant, which was purchased for the estate in the previous year, 1,001 acres out of 1,526 have been brought under cultivation. The rent collections were admirable, but the recoveries of takávi and law expenses very small. Of the Rs. 4,000 budgetted for improvements only Rs 855 were spent. The Deputy Commissioner reports that after application to Roorkee and Cawnpore, and advertisement in the newspapers, he failed to procure a competent overseer. There would have been less difficulty in finding, as in Bahraich, an efficient contractor. The requirements of this estate appear to be as great as those of Rhewa in regard to drinking wells, and in the short time during which the Court of Wards will retain the management it is desirable that effective measures be taken in a matter of much importance to the health of the villagers. The

minor Rája resided during the year with his father-in-law at Nánpára, whose influence is reported to have been beneficial. A suitable settlement was made for the support of his half-brothers.

No. 29, *Paska* (*Court of Wards*). *Normal income Rs.* 34,000 ; *on* 30*th September*, 1883, *deficit Rs.* 14,000.

The rent-roll was reduced by the loss of the Káshipur Manjha, but half of the remaining debt was paid off, and by another year the estate will be clear.

Rent collections were good, but nothing whatever was done in the way of improvements, either by the management or, as far as the reports show, by the tenantry. This is a disappointing conclusion to the promising commencement made last year. The Deputy Commissioner might now consider whether the allowances to the Thákurain might not now be somewhat increased.

Fyzabad District.—Officer in charge, Captain Barrow, Assistant Commissioner.

No. 30, *Khapradih* (*encumbered estate*). *Normal income Rs.* 71,000 ; *on* 30*th September*, 1883, *deficit Rs.* 20,000.

A full account was given in the notes on estate management in last year's review of the remarkable change in the condition of this estate, at one time believed to be bankrupt. The portion of the estate situate in the Sultánpur district has this year had applied to it under Mr. Wells the same system of management which had been so successful in Fyzabad. The Deputy Commissioner of Fyzabad, in forwarding the joint report, writes as follows:—

"There is scarcely a single branch of estate administration in which Captain Barrow and Mr. Wells

have not shown conspicuously well in their management of this estate. The rapid strides in successful management which were made year by year by Captain Barrow during the first five years have now been almost equalled by those made by Mr. Wells, and it doubtless only remains for the re-settlement of the khám maháls in that district for Mr. Wells to obtain leisure to look after the improvements. The surplus available at the end of the year for the reduction of debt annually increases, and had it not been for the marriage of the young talúqdár's sister, there would have been over Rs. 17,000 to devote to the reduction of debt." The gross collections in Fyzabad were equal to the year's rental; in Sultánpur, from the realisation of under-proprietary arrears, they reached the high figure of 113 per cent. on the current rental. Of the outstanding arrears remissions have been granted to the extent of Rs. 4,535, and throughout the estate rent affairs have now been put on a satisfactory footing.

"There are still some troublesome sub-settled maháls, but these can now be counted on the fingers of the hand; whereas five years ago default, and not punctuality in payment, was the general rule."

There is still a long minority to run, and it is gratifying to find that the work of improvement progresses. Last year 18 wells were built on the estate, 15 by tenants: this year 21 have been completed, 20 by tenants, and nine others have been commenced. These have been, with scarcely an exception, inspected by the estates officer, to see that the terms conceded to the tenants have been fairly earned. A favourable report is given of the young Thákur's education; his sister has made a good marriage, and he becomes, under a recent decision of the Privy Council, heir to the sister-estate of Sihipur. The year has been thus one of singular prosperity on this estate.

District Sultánpur.—Officer in charge, Mr. Wells, Assistant Commissioner.

No. 31, *Kurwar* (*encumbered estate*). *Normal income Rs.* 1,09,000 ; *on* 30*th September*, 1883, *deficit Rs.* 1,32,000.

The rent collections in this estate were for many years made with great difficulty. The under-proprietors, who occupy a large portion of it, took up an attitude of steady resistance. This has been successfully overcome by a treatment, patient but firm, which entitles the estate officer to much credit. For the portion situate in Sultánpur district Mr. Wells reports that there is now only one village in which extreme difficulty is experienced in getting in the rents, and for the portion in Fyzabad Captain Barrow records that this is the first year in the annals of the estate in which the sub-settlement-holders have paid up their rents in full. He adds that there are still some troublesome pattis ; but default is now the exception and not the rule. Those cases in which the collections still give trouble will be carefully examined by the estates officer as to the causes of default, and the assistance given or the remedy applied which their separate circumstances may show to be necessary. Of the rent balances, Rs. 1,247 have been remitted at the instance of the estates officer. The high standard of collections that has now been attained has enabled the payment of debt to be largely accelerated, and in this ancient estate, which six years ago was supposed to be bankrupt, there is now a fair hope of its being clear of debt in 1890. Great advance was also made in the improvement of the property. Five new wells, two embankments, a tank, a drain, and a bázár, were made at the expense of the estate, and two new wells begun. Fifty-five wells were built by the tenantry and 17 others commenced. Assistance was given in every kind of way, in wood, in cash loans without interest, in remissions and postponements of rent, in allotments of

ground for groves. This progress was effected in spite of a season very unfavourable to well-building, and the results of the year are most creditable to the tact and energy of the estates' officers and their assistants. There could be no more satisfactory evidence of the condition of affairs than the fact reported, that not more than six relinquishments were tendered in this large estate.

No. 33, *Gangeo* (*encumbered estate*). *Normal income Rs.* 23,000; *on* 30*th September*, 1883, *credit balance Rs.* 1,500

The rent collections were again excellent. The debt was cleared off and the estate released at the end of the year. The talúqdár had been associated in the management for the last three years, and has evidenced a business capacity which gives good hope of his future success. With his active assistance eight wells were finished by his tenantry and seven others begun; two were built by himself.

No. 34, *Mahona* (*encumbered estate*). *Normal income Rs* 45,000; *on* 30*th September*, 1883, *deficit Rs.* 79,000.

Collections in all branches have improved since last year and the rent balances have been carefully examined by the estates officer, and on his recommendation Rs. 1,127 have been remitted by the Commissioner. The estate is improving. The tenantry are more ready to make wells than in any other estate, and Mr. Wells succeeded in getting no fewer than 38 built in the course of the year. The liberal measures taken last year appear to have had a most beneficial effect in encouraging the tenantry, and appeasing the difficulties which formerly embarrassed the management. A large reduction was made in the debt, and the estate should be cleared, at least of its present debt, in seven years. There is unfortunately little hope of the talúqdár amending habits which will again involve the estate.

No. 35, *Jamu (encumbered estate). Normal income Rs.* 30,000 ; *on* 30*th September*, 1883, *deficit Rs.* 9,000.

The season was a disastrous one on this estate. It contains large tracts of jarhan, in which from the deficiency of the rains the crop was a failure. There were hopes of recouping the loss by the wheat grown in the dry bed of the Masiawan Tal ; but the heavy rain of January destroyed the greater portion of the crop. Rent collections were necessarily low, and the expected liquidation of the debt will not be effected till next year. This is of the less importance, as it may be necessary to retain the estate in the Court of Wards. One well was made at the expense of the estate, 10 by the tenantry, and 18 others were in course of construction.

No. 36, *Partábpur, (encumbered estate). Normal income Rs.* 10,200 ; *on* 30*th September*, 1883, *deficit Rs.* 12,700.

The affairs of this estate have been so far cleared ; the partition between the three coparceners effected, the debts of two paid off, and there remains under management the share of the third. This was carefully surveyed during the cold weather, with the result that some land was discovered for which no rent was paid, and a good deal much below its value. Nothing, however, was done in the way of improvements.

No 37, *Bhadayan (Court of Wards). Normal income Rs.* 30,000 ; *on* 30*th September*, 1883, *deficit, Rs.* 24,500.

The estate was taken over in 1881 on the succession of the present owner, a boy of 15. It was heavily indebted, but it is a flourishing little property and not on the whole difficult to manage. Six wells were built by the tenantry, and in the current year the estates officer hopes to effect some material improvement. The ward attends the Sultánpur school. Negotiations have been made for his marriage with the daughter of a well-to-do zamíndár of the Benares district It is not explained why the current interest on the debt was not discharged in full.

No. 38, *Pali* (*Court of Wards*). *Normal income Rs.* 16,300; *on* 30*th September*, 1883, *credit balance Rs.* 9,600.

This little estate has been in the Court of Wards since 1875. The debt with which it entered has been paid off, and there is now a considerable surplus, part of which the estates officer proposes to invest for the present in Government paper. The improvements hoped for last year have not been carried out. One well was in course of construction by the manager, two were built by tenants. The estates officer promises attention to this in the current year. The ward is being educated at home, and is already making himself useful. The Deputy Commissioner will doubtless satisfy himself that his progress in education is sufficient.

No. 39, *Unchgáon* (*Court of Wards*). *Normal income Rs* 13,000; *on* 30*th September*, 1883, *credit balance Rs.* 21,600.

Very similar remarks may be made on this estate. The debt has been paid off during the minority, and the balance in hand is considerable. More however, was done for improvements. Seven wells were built by tenants and one was under construction by the estate. The ward appears to have ceased to attend school: the matter of his proper education must not be overlooked.

No. 40, *Walipur* (*Court of Wards*). *Normal income Rs.* 6,800; *on the* 30*th September*, 1883, *credit balance Rs.* 14,400.

The management of this small property continues to improve. The rent is said to be easily collected and collections were excellent. The amount of uninvested capital was not considerable. There is reported to be much need of irrigation, but the difficulties of well-making are great from the presence of sand and kankar. Eight wells have, however, been commenced, and a good deal is expected to be done in the current year. The ward is very young, but as the heir by adoption to the

ráj of Kurwar and the chieftaincy of the Bachgotis, his careful education should engage the special interest of the Deputy Commisssioner.

Rae Bareli District.—Officer in charge, Mr. G. R. Irwin, Assistant Commissioner.

No. 41, *Kuri Sadauli* (*encumbered estate*). *Normal income Rs.* 61,800; *on* 30*th September*, 1883, *deficit Rs.* 75,000.

The collections were not so good as in the previous year, owing to the relative poorness of the kharíf harvest, but still were excellent, 97½ per cent. of the current demand, and the estate appears to have rallied from the drought which visited it in 1880. It commenced fresh progress in the payment of its debts. The sum of Rs. 8,300 had to be provided for the marriage of the young Rája's sister, but upwards of Rs. 10,000 of the debt was paid off. Improvements were on a smaller scale. The ward remains at the Aligarh College, and the report on his education continues satisfactory.

No. 42, *Bahua* (*encumbered estate*). *Normal income, Rs.* 20,900; *on* 30*th September*, 1883, *deficit Rs.* 66,000.

The largest payment that has ever been made towards the very heavy debt on this property was effected in the year under report. This is saying little, for the sum was after all but Rs. 2,000; but it is a beginning, and to a certain extent encouraging. Mr. Irwin is inclined to think the policy of improvement was pushed too far in previous years; but the Commissioner points out that the improvements have commenced to have good effect on the rental of the estate already, and they appear to have enabled the tenantry to meet with punctuality rents in which there would have been serious default in a similar season a few years ago. The rent collections were 96½ per cent. of the year's rental. The property is, however, still in such a critical state of embarrassment that it should yearly receive a special share of the estates

officer's attention, and in the next report he should submit a careful examination of the measures taken for its benefit, their effect on the tenantry and the rental, the expediency of further improvements, and the prospects of progress in the liquidation of debt.

No. 43, *Amawán, Abdul Hakím Khán (encumbered estate). Normal income Rs.* 17,000; *on* 30*th September*, 1883, *deficit Rs.* 6,000.

The tract of country in which this property is situate fared better than most parts of the district, and not only were the current rents recovered in full, but Rs. 3,350 were paid up of arrears of previous years. Nearly half of the debt due on it was paid off. The education of the ward appears to be giving a good deal of difficulty, and it is to be hoped that less unsatisfactory accounts may be received this year.

No. 44, *Amawán, Muhammad Zaman Khán (encumbered estate) Normal income Rs.* 10,700; *on* 30*th September*, 1883, *credit balance Rs.* 185.

The rent collections were not quite so good as in the sister-estate above, but the release of the property from Government management had for some months been anticipated and perhaps discounted. The whole of the remaining debt was cleared off by the sale of two villages to the Ráni of Tiloi, and the estate restored to its owner, a young man, who had long assisted in the management, at whose instance the sale was made, and whose active and intelligent conduct gives good hope of his successful administration of what remains of his patrimony.

No. 45, *Azizabad (encumbered estate). Normal income Rs.* 17,600.

This estate was restored to the talúqdár in April on his paying up the small debt which then alone remained due upon the estate.

No. 46, *Khajuri* (*encumbered estate*). *Normal income Rs.* 7,000; *on* 30*th September*, 1883, *deficit Rs.* 8,600.

Khajuri did well, the crops were better than in most of the Rae Bareli estates, and the opium crop escaped much damage from the rain of February. The debt will be cleared in the course of a couple of years. The ward was for part of the year at the Aligarh College, but has now been removed to the Canning College. Nothing is this year said of his progress.

No. 47, *Kurihar Sataon* (*Court of Wards*). *Normal income Rs.* 77,000 ; *on* 30*th September*, 1883, *deficit Rs.* 16,000.

The rent collections on this fine and flourishing property were excellent. The sarbarahkar, under whose able and judicious management the estate had for many years been prospering, was rewarded for his services by promotion to a tahsíldárship. The debt is nominal. In 1880 several villages were purchased for the estate for Rs. 77,000, to be paid off at Rs. 20,000 per annum. The seller declines to be paid faster. Of the purchase-money Rs. 30,000 is still under these conditions outstanding. The estate dispensary continued its useful work. Three roads were made at the expense of the estate, which will be of considerable utility in opening up the country through which they run, and a fair was started at Satáon, which was largely attended and promises to be a success. The young Rája continues his education at Aligarh, from which a satisfactory report is received. It would be desirable, as was suggested last year, that every opportunity should now be taken of introducing him to his tenantry and acquainting him with the details of estate management.

No. 48, *Bela Bhela* (*Court of Wards*). *Normal income Rs.* 30,600 ; *on* 30*th September*, 1883, *credit balance Rs.* 17,000.

This is also a flourishing property. Shortly after the close of the year it was made over to the ward, a young man of 20, who has received an excellent educa-

tion in the district school, and who has for some years taken an effective part in the management. The rent collections were in the circumstances good, and the estate came into the hands of the ward with an invested balance of Rs. 16,500.

No. 49, *Bhiragobindpur* (*Court of Wards*). *Normal income Rs.* 48,300; *on* 30*th September*, 1883, *deficit Rs.* 1,79,600.

Under the excellent management of Sardár Autár Singh, whose experienced and sagacious services are again especially noticed, this estate made good progress during the year and paid off Rs. 6,500 more of its debt than the annual sum stipulated in the engagement. Improvements in cattle-breeding appear to have engaged some attention on this estate.

No. 50, *Shankarpur* (*Court of Wards*). *Normal income Rs.* 41,300; *on* 30*th September*, 1883, *credit balance Rs.* 10,500.

The receipts were considerably less than in the previous year, but this was mainly due to the unpunctuality of the perpetual lessee on the Jessore property. The rent is Rs. 8,000; but in the previous year the collections with arrears were Rs. 12,000; in the year under review only Rs. 4,000 were received; greater punctuality should as far as possible be procured in this matter. The estate has never been in debt, the tenantry are prosperous, their improvements have been considerable. The estate dispensary is continued at considerable cost, but is reported to be a most useful institution, and the invested balance is considerable. The ward attends the Canning College and is said to be doing very well.

No. 51, *Pandriganeshpur* (*Court of Wards*). *Normal income Rs.* 58,200; *on* 30*th September*, 1883, *deficit Rs.* 3,02,000.

The rent-roll of this estate was increased during the year by nearly Rs. 10,000, the rental of the Dharu-

pur estate, which has been put into the possession of the Court pending the decision of the Privy Council on the claim of the estate by mortgage against Rája Rámpál Singh The costs in this important case are the heaviest item in the provincial law expenditure of the year. Rent collections were again excellent, and a reduction of Rs. 21,000 was effected in the debt besides the payment of all current charges and a special item of Rs. 2,000 for extraordinary personal expenses. The recoveries of takávi advances were exceptionally good. The fluctuations in rent receipts from the house-property seem to merit inquiry. Two very useful roads have been made at the expense of the estate, connecting the Bainti bázár with points on the main highways.

No. 52, *Binohra (Court of Wards). Normal income Rs* 12,700; *on* 30*th* September, 1883, *deficit Rs.* 29,000.

Rent collections were fair, but the estates officer rightly describes the progress as modest, and the prospects of the liquidation of the debts are not cheerful. They have been compromised for a loan at light interest, and though affairs are not so serious as in Bahua, management in this estate will require special attention.

No. 53, *Gaura (Court of Wards). Normal income Rs.* 76,300; *on* 30*th September*, 1883, *deficit Rs.* 56,000.

The rent collections are very creditable to the sarbarahkar, but unforeseen charges occurred to the extent of Rs. 4,000, some of which should not have escaped anticipation in the budget; and the sum available for payment of debt, Rs. 12,000, was less by Rs. 3,000 than in the previous year.

No 54, *Udrehra (Court of Wards). Normal income Rs.* 36,500; *on* 30*th September*, 1883, *deficit Rs.* 67,400.

A large portion of this estate consists of rice-lands, which suffered from the early stopping of the rains, and collections were necessarily less successful than elsewhere. An "unforeseen" charge of Rs. 1,280 had to be

met for the repayment of Government takávi. Nevertheless, the estate did well. Under the terms of its present debt it has to pay Rs. 7,000 towards the principal, but it succeeded in paying, notwithstanding these unfavourable circumstances, Rs. 10,500, while it still retained a substantial balance towards the next instalment.

No. 55, *Sehgáon Pachhimgáon (Court of Wards). Normal income Rs* 9,200 ; *on* 30*th September*, 1883, *deficit Rs.* 12,100.

Matters here are on a much more satisfactory footing than last year. The claims of a dozen creditors, most of whose loans bore 24 per cent. interest, have been met by a loan from the Delhi Bank at 9 per cent. The owner has abandoned the obstructive attitude which occasioned so much trouble, and notwithstanding an unfavourable season and indifferent collections, a sum of Rs. 900 was paid against the principal of the debt.

No. 56, *Bodhampur (Court of Wards). Normal income Rs.* 2,150 ; *on* 30*th September*, 1883, *credit balance Rs* 80.

This little property has as usual done extremely well. The tenants paid their rents in full, and the balance at credit has been considerably increased.

No. 57, *Lodhwari (Court of Wards). Normal income Rs.* 18,800 ; *on* 30*th September*, 1883, *deficit Rs.* 18,700.

The realisations were excellent, and are attributed partly to the able management of the sarbarahkar, partly to the admirable irrigation which renders this property to a great extent independent of the seasons. The tenantry, whose combinations against the landlord were the direct cause of his application for Government management, have preserved the most peaceable relations with the officials of the Court of Wards. The progress in the payment of the debt was satisfactory, and it is anticipated this will be nearly cleared in another year.

Partábgarh District.--Officer in charge, Major Grigg, Deputy Commissioner.

No. 58. *Kaithola* (*encumbered estate*). *Normal income Rs.* 29,000; *on* 30*th September*, 1883, *deficit Rs.* 26,500.

The rent-rates prevailing in this estate are stated to be extremely light, owing partly to the very deficient water supply, partly to the fact that farming tenants were permitted to acquire large holdings which were let and sub-let at no inconsiderable profit. In the largest village of the estate Major Grigg found land sublet through four degrees. The measures taken to remedy this undoubtedly unsatisfactory state of things cannot be all commended. Fifty-eight notices of ejectment were issued; but as they related to only 637 bíghas, they do not appear to have been directed against that class of tenants who had ceased themselves to cultivate the land. Hampered by the general rent inquiries of last winter, Major Grigg was obliged to take the recommendations of the manager on trust; and as several successfully objected, he has had evidence that these reports cannot be implicitly accepted. In the improvement of the water-supply better results were achieved. The large village of Piagipur had not a single well, and the failure of the late Rája had deterred all other attempts at well-building. The estates officer has successfully built for Rs. 850 a well which supplies fourteen *púrs* of water, and has commenced another. Three others, working 20 *púrs* in all, have been built in other villages of the property, and a number of sites have been selected for work in the current year. At the same time, beyond three masonry wells and 25 kacha ones, nothing has been effected through the tenantry. The estates officer complains of the apathy and opposition of the sarbarahkars. The application to this department of the administration of the estates of the painstaking energy he has everywhere else shown cannot fail to secure him equal success to that attained in Rae Bareli and Sultánpur. The rent collections in the under-proprietary tenures, which occupy a large portion of this estate, show a marked and very

desirable improvement, effected in lafrge part by the personal communication of the Deputy Commissioner with the defaulters, patient adjustment of their disputes, and firm demand of the admitted dues. The estate has been engaged in some very heavy but unavoidable litigation, which retards the ettlement of its debts. The principal was, however, reduced by Rs. 5 200.

No. 59, *Rájapur (encumbered estate). Normal income Rs.* 13,200 ; *on* 30*th September*, 1883, *deficit Rs.* 11,700.

The collections on this estate were the highest in the district, and the returns show that the under-proprietors are now paying punctually. But nothing was done for its improvement, although it is admitted to be sadly in want of wells. The Deputy Commissioner promises to visit the estate this year and arrange for improvements. The advantage of making them through the tenantry is that the construction of wells is not put a stop to by the estate officer's detention elsewhere. The debt was reduced by Rs. 4,700, and little more than two years is left for the development of the estate under the Deputy Commissioner's care.

No. 60, *Madhpur (Court of Wards) Normal income Rs.* 5,700 ; *on* 30*th September*, 1883, *deficit, Rs.* 18,600.

The mortgage of four villages to Ráe Mádhoparshád Singh with possession has reduced the area of the property under the Deputy Commissioner's charge to 38 villages with a rent-roll of only Rs. 5,770. The collections were excellent, and the debt, including the mortgage, is now reported to stand at Rs. 18,638. A dam by which the Deputy Commissioner hopes to reclaim some 40 bíghas of land has been built and two wells are in course of construction.

No. 61, *Bargáon (Court of Wards). Normal income Rs.* 20,600 ; *on* 30*th September*, 1883, *deficit Rs.* 70,000.

The decrease in the rental is due to the mortgage of a village to Bábu Mahesh Baksh Singh, to which reference

was made last year. In the remainder the collections, current and arrear, reached the high figure of 103 per cent. on the gross rental. The creditors who pressed for sale have withdrawn their application, and there are prospects of the slow but steady extrication of the estate from debt. The sum of Rs. 9,000 was paid off during the year; an outstanding item of interest, Rs. 155, should not have been allowed to remain unpaid. Two fine wells were built at the expense of the estate, besides some old ones and a bandh repaired.

No. 62, *Harakpur (Court of Wards). Normal income Rs.* 400; *on* 30*th September*, 1883, *credit balance Rs.* 830.

The rents of this little estate were collected in full, and for the surplus the Deputy Commissioner is now seeking investment. It is hardly satisfactory that the ward was allowed to defy control, and by repeated escape from school compel the Deputy Commissioner to acquiesce in home education.

No 63, *Shamspur (Court of Wards). Normal income Rs.* 16,800; *on* 30*th September*, 1883, *deficit Rs.* 28,500.

Four villages of this estate were transferred by order of the Civil Court to the roll of estates attached in execution of decree; but why the Deputy Commissioner should have therefore removed them from this list is not apparent. It would not have been difficult to furnish the Civil Court with an extract of the figures relating to these villages, or to have arranged for an annual payment based on their average profits. The separation of these villages has entailed considerable complication of accounts and given opportunity for part at least of the embezzlement reported last year, with its consequent loss to the estate. Arrangement should now be made for a settlement in one of the methods suggested. Rent collections were on the whole excellent, but the rents of leased villages were very much in arrear. One new well was finished and two old ones repaired—a small out-

turn of improvement for so considerable a property. No less than 80 notices of ejectment were issued, of which more than half were solely to enhance rent. More information than the Deputy Commissioner has given is needed for the justification of this measure. Nearly Rs. 9,000 of the debt were paid off during the year, and there was nothing in the condition of the estate to call for raising of rents, while the improvement of the property was deferred. An item of Rs. 558 of interest remained unpaid at the end of the year.

APPENDICES.
